Italian: mother tongue

English: intermedie

Driver's licence

#### **EDUCATION**

### Master in Computer Science and Engineering

(October 2015 – July 2018) **Politecnico di Milano, Milan, Italy.** The Master programme is taught in English.

Bachelor Degree – Computer Engineering, 89/110. (24th July 2015) Politecnico di Milano, Milan, Italy.

#### Maturità Classica

Liceo Classico Carlo Maria Carafa, Mazzarino (CL), Italy, 100/100

### **TECHNICAL SKILLS**

- C, Java, Python;
- IBM Data Studio, DataBase design, mongoDB;
- Html 5, CSS, javascript;
- Apache Cordova, Ionic framework;
- IBM Watson APIs:
- LateX

#### **WORKS**

## Master's Thesis

Design and implementation of plush robot with an elephant appearance called ELE, which acts as conversational companion and has been designed to help subjects with NDD develop communication abilities. ELE supports therapists in monitoring and asses the child during and after a therapeutic session.

# Advanced User Interface: ABI for SACRE

Abi is an autonomous conversational robot that was designed as a tool for people suffering from Alzheimer's, supporting the medical and familiar care and contrasting loneliness.

Abi delays the patient's cognitive decline performing memory training through full immersive conversations, i.e. making the patient repeat sentences, numbers or sequences of movements and associate words to their meaning

Python, IBM Watson APIs;
